The perfect alliance of performance...

...and comfort

Class 4 – Exterior areas

Class 4 – Variety of options

*Modern design, wide windows for brightness
panoramic view on the sea*

Personalized arrangement, furniture and finishing

O Yachts - Class 4

O Yachts builds performance yachts, to feel the good sensations of flying on the water, thanks to the optimized lightweight and hull design. It does not only sail fast but also easy in the light air (3 to 10 knots wind speed) with up to 20% above the wind speed.

Class 4 is built to high quality standards, reinforced with carbon and Kevlar. Composit panels are laminated by hand making them structural, representing hundreds of labor.

Sofa, kitchen, stairs, floor, bed, are structural and will not produce a single “crack” when you walk on the boat at night.
