Description

Used but entirely immaculated maintained racing X-Treme 37 yacht. Only sailed 8 seasons and major refit in 2021, included extended bowsprit and new backstay arrangement incl. new winches. The R/P 37 is a carbon racer that can be successfully sailed for ORC international/club racing or simply for fast family sailing. In addition to the very good sailing characteristics, the R/P 37 is also suitable for touring inshore/offshore (Cat. A)

R/P 37 has been designed to the most exciting standards to be powerful and fast both upwind and downwind. Regular investments have been made to maintain the value of the yacht.
